

Adobe DREAMWEAVER Introduction

Call: 01628 810 196 | jessica@dynamix-training.co.uk | www.dynamix-training.co.uk

Adobe Dreamweaver web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. Use new Fluid Grid Layout designed for cross-platform compatibility to create adaptive layouts. Review designs with the enhanced Multiscreen Preview before publishing.

Course Description

Dreamweaver is a website creation tool, enabling users to efficiently design, develop and maintain websites. Given the scope of the product, this course is run as a bespoke course, allowing it to be tailored to your exact requirements. To provide a start point, we'd recommend you use the suggested course outline as a guide.

This training course is bespoke, giving you the opportunity to tailor the content to your exact requirements. If you need a starting point, use the course outline below as a guide. The important thing to remember is that it's your course - tell us your goals and we'll help you achieve them.

The provided outline is intended for those transitioning into a website related job or taking on website maintenance responsibilities, and takes you through the key steps to enable the production of a professional working website. If already familiar with the use of Dreamweaver, a more advanced course can also be provided.

Should you wish to further develop your knowledge, you might be interested in our other Web Design Courses. The course runs from 9.30 am to approximately 4.30 pm.

How do websites work?

The Anatomy of a Micro Site
Your target audience
Accessibility & your responsibilities
Planning
Navigation maps
Wire Frames
