

# Adobe EDGE ANIMATE Introduction

Call: 01628 810 196 | [jessica@dynamix-training.co.uk](mailto:jessica@dynamix-training.co.uk) | [www.dynamix-training.co.uk](http://www.dynamix-training.co.uk)

*Adobe® Edge Animate is a web motion and interaction design tool that allows designers to bring animated content to websites, using web standards like HTML5, JavaScript, and CSS3.*

## Course Description

Create engaging and interactive 'Flash less' animation using HTML5 for cross platforms, Web sites, Mobiles; Android, iPhone, iPad alike. It features an easy to use interface, with a properties-based timeline for impeccable accuracy and control. Create new compositions, import and animate web graphics, or add motion to existing HTML files without compromising integrity. Also, Edge Animate works natively with HTML to ensure compatibility with existing workflows.

This course is run on a bespoke basis, giving you the opportunity to tailor the course to your exact requirements. To provide a starting point, we'd recommend you use the suggested course outline as a guide.

Should you wish to further develop your knowledge, you might be interested in our other Web Design Courses.

The course runs from 9.30 am to approximately 4.30 pm.

### Overview

An Introduction to Edge  
Why use Edge?  
What is Edge?

### Control the document

Document size and colour  
Control and understand document overflow  
Edge Project Files  
The Elements panel  
The Properties panel  
The Timeline panel

### Media

HTML 5 Video  
Audio

### SVG from Adobe Illustrator

### Animation

Working with Images and text  
Adding Web Fonts and typography  
Arrange and align content  
Simple Animation Techniques  
Create transitions and fades  
Work with keyframes/  
Autokeyframing  
Use and understand the Marker  
Use and understand Triggers  
Using Labels  
Easing in Edge  
Symbols in animation

### Interaction

Add Events for mouse interactions  
Add Triggers

Create Looping  
Create mask effects  
Animate existing web pages  
Creating hotspots  
Create hyperlinks  
Create navigation

### Symbols and Interactivity

Scripting Syntax  
Working with Scripting  
Element Events  
User Events  
Buttons  
Article Linking for Adobe DPS

### Building an Image Slider

Save and publish  
Integration into a page
